**PROFILE**

My name is Caner, I was born in Istanbul in 1995. I studied at Köseköy School in my high school years(2 years) and then I graduated from Sabancı Technical High School(2 years). When I entered university exam, the department I wanted to study was Computer Engineering. In my first year, I get into the Department of Computer Engineering in Iskenderun Technical University. I have always tried to develop this field. I like to write code and programing now. I usually like to hang out on the operating system (Especially Linux). I also have knowledge about languages such as C #, BASIC for Windows. There is a book written in the name of C++.
